ABOUT US

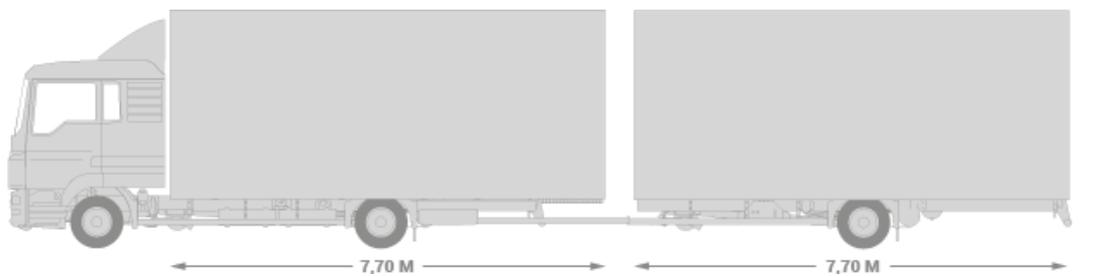

Prolo Logistik is the company which is operating on the market since 2010. We are specialized in FTL and LTL transports of bulky goods of a maximum volume up to 120 cubic metres.

Our high volume truck sets are able to take on board 38 Euro pallets of cargo and our doppelstock trailers are able to carry 66 Euro pallets. This enables you to optimize logistics processes and has a positive effect on the reduction of costs.

Our professional and experienced team executes all of our clients' orders with a maximum attention to the quality of the service provided.

The mark of our quality is still increasing number of customers who have placed their confidence in us and shown their appreciation for the benefits of cooperation with our company.

Our fleet consists mainly of high volume vehicles of maximum cubic volume of 120 m³. Moreover, we have open trailers which are adapted to carry special and oversized loads with the maximum length of 23 metres.

Our semi-trailers enable transport of loads with a height of 3,5 metres and are adjusted to carry various types of machinery and devices which must be transported under the tarpaulin.

To better meet our customers' needs, we therefore decided to extend the offer by the doppelstock trailers. Due to their innovative construction we are allowed to provide a shipment up to 66 Euro pallets on board. In our regular offer we have trucks with a tarpaulin cover with a maximum capacity of 25 tones. All our trailers are monitored in a real time so that our customer can have complete control of their shipments and check the location of the transported goods at any time.

All our vehicles meet the strict euro 5 and euro 6 standards for fume emissions.

OUR TRUCK:

OUR STRENGTHS
